## Standing Joint Committee on Redistricting and Reapportionment

2020 Actual MS Statewide population: 2,961,279

2010 Actual MS Statewide population: 2,967,297

Statewide Change: loss of 6018 people

## The 5% rule

A guideline called the "5% rule" allows for the population to be plus or minus five percent (+/-5%) of the ideal value.

### Congress:

Mississippi has 4 Congressional districts. 2,961,279 (pop) divided by 4 (districts) results in an ideal population value for each house district of **740,320**. The Congressional Districts have to be as equal in population as is practicable, so ideally each district will differ by only **1** person.

### Senate:

Mississippi has 52 Senate districts.

2,961,279 (pop) divided by 52 (districts) results in an ideal population value for each Senate district of **56,948**.

Using the 5% rule, a district could range in population from **54,101** to **59,795**.

## House Of Representatives

Mississippi has 122 House districts.

2,961,279 (pop) divided by 122 (districts) results in an ideal population value for each house district of 24,273.

Using the 5% rule, a district could range in population from 23,059 to 25,487.

## **Operations:**

Mississippi will receive the population information on Sept 30th, 2021. This is known as the PL94-171 Census data, and will be available for public download on the Census website. The redistricting committee will open its public access office on October 10th, 2021. Individuals and groups may make appointments to use the legislative redistricting resources to develop plans for submission to the committee. For information, appointments, or to submit paper or digital input, please contact:

The Standing Joint Committee on Reapportionment and Redistricting
